

# Fundamentals in Practical Leadership

## *Skills and Tools for New and Emerging Leaders and Managers*

### Session 9: Financial Accountability

#### *Certificate Reflection Questions*

Thank you for attending *Financial Accountability* on January 31, 2022. If you were not able to attend or would like to review the webinar again you can do so [here](#) (password: cfolead2). Below you will find the reflection questions for this session. We hope these questions provide an opportunity for you to digest the information you received in the webinar, and to put the ideas into practice. If you have any questions, please contact us at [webinars@cfoe.ca](mailto:webinars@cfoe.ca)

#### Session8: Reflection Questions:

1. Review the annual financial statements from your organization (or an organization in your sector that publicly posts their financial statements). What do you see in those financial statements that helps you understand the organization better?
2. What is a project or change that you would like to see your organization take on? Using the project financial tool, complete a financial analysis of the project. (use estimates and “rules of thumb” for numbers if you need to, it is more about practicing with the tool than coming up with the perfect “bottom line”, unless you are actually planning on proposing the project – in which case, the more accurate the better!)

#### Submission Instructions:

Your response should be **Maximum 3 pages**

Please submit your responses to these questions as a word or pdf.

Email to: [webinars@cfoe.ca](mailto:webinars@cfoe.ca)

Email subject AND File name: YouNameSession8

Due date: February 28, 2022

After you submit your response you will receive a confirmation email. The person who led the webinar will be the one to review the reflection questions on a Pass/Fail/Resubmit format. They will also provide brief comments on your response. It is our goal to provide feedback before the next reflection is due.
